Dear Ms. Searless:

This is in response to the US Environmental Protection Agency's (USEPA), Contractor's (ARCADIS) February 27, 2018 letter, requesting permission to access the Southeast portion of Section 13, T13N, R11W, to implement Time Critical Removal Action (TCRA) activities. The TCRA activities will be conducted in accordance with the Administrative Settlement Agreement and Order on Consent for Removal Action (AOC; Comprehensive Environmental Response, Compensation, and Liability Act [CERCLA] Docket No. 09-017-02 and Docket No. 06-02-17) executed between the USEPA and BNSF Railway Company (BNSF). The BIA also acknowledges that BNSF is a "potentially responsible party" (PRP) for the Haystack Mine Site, and that the USEPA will oversee the site soil remediation activities by BNSF and their contractors.

Permission is hereby granted to USEPA to access the P.L.O. 2198 lands in the SE/4 of Section 13, T13N, R11W, in order to oversee and implement soil removal activities by BNSF and their contractor(s) as authorized by the approved Time Critical Removal Action (TCRA). Additionally, there is to be no collection or taking of any cultural resources or biological resources.

Please provide the Division of Property copies of the final remediation closure statement and documents.

If you have any further questions data regarding this matter, please contact Fern Becenti, Region Supply Management Officer, at (505) 863-8223.

Sincerely,

Regional Director, Navajo
